Hospice Form Contract Templates

This is an electronic, downloadable product.

Compliant contracts are an essential component of the Office of Inspector General's (OIG) recommendations for an effective compliance program. The hospice experts at Weatherbee Resources and Arent Fox, LLP, a healthcare law firm, have created 6 templates that allow the hospice provider and/or its legal counsel to customize each contract to include any state, federal, accreditation, or best practice language.

Hospice Policies & Procedures

This is an electronic, downloadable product.

Available in separate volumes — Administration, Human Resources, Patient Care — that may be purchased individually or together. Each volume includes operational and regulatory policies and procedures consistent with the Medicare Conditions of Participation (CoPs). Regulatory Policies & Procedures manual is designed for hospices that don't need new operational policies and procedures but want to be certain they have the policies needed for compliance with hospice regulations.

Policies & Procedures Updates Subscription

Weatherbee's Hospice Policies & Procedures are updated as needed when there are changes in regulations or patient care practices that affect hospice programs. This optional subscription fee assures that your policies and procedures are in a constant state of readiness and reflect current regulatory requirements.
