

	FY2023 ICD-10-CM DEMENTIA DIAGNOSIS CODES SUMMARY, NEW/RE	VISED. Effective with DOS 10-01-2022
The disease	e of Dementia has been organized into 3* subcategories (types) in ICD-10-CM, with a total	
of six codes (for with and without behaviors, by type):		Effective with FY2023 ICD-10-CM (10-01-2022)
		Changes in Dementia diagnosis coding maintains these
<u>Vas</u>	scular Dementia [F01.51/with; F01.50/without]	3 subcategories for Dementia with expansion of dementia
<u>De</u> ı	mentia in diseases classified elsewhere [F02.81/with; F02.80/without]	diagnosis codes from 6 to 72.
<u>Un</u> :	specified (or NOS) Dementia [F03.91/with; F03.90/without]	aragnosis codes <u>from o to 72</u> .
Effective w	ith FY2023 ICD-10-CM (October 1st, 2022), each diagnosis subcategory for Dementia	
	ithout behaviors) expands to include the severity of the dementia as mild, moderate,	
severe or u	·—————————————————————————————————————	
		ALL Dementia Behaviors (with or without) only can be assigned
Mild de	mentia Clearly evident functional impact on daily life, affecting mainly instrumental	diagnosis codes based on the dementia type and severity
	lo longer fully independent/requires occasional assistance with daily life activities.	
		<u>Dementia subcategory/type</u> + <u>severity</u>
Modera	te dementia Extensive functional impact on daily life with impairment in basic activities.	[F01, F02, F03] [.A-, .B-, .C-]
No longer i	ndependent and requires frequent assistance with daily life activities.	
		<u>PLUS</u> additional one to two final code digits, depending on
Severe o	dementia Clinical interview may not be possible. Complete dependency due to severe	behavior/s specified [2, 3, 4, 11, 18 or 0]
functional i	mpact on daily life with impairment in basic activities, including basic self-care.	full code details below
Demontic :	with behaviors, has 5 new diagnosis codes (per type/severity) for behavior specificity:	Dementia without behaviors also has new diagnosis codes
Demend P	with behaviors, has a new diagnosis codes (per type/seventy) for behavior specificity.	assigned by type/severity. [A0,B0,C0]
-11 Acid	tation [such as, aberrant motor behavior such as restlessness, rocking, pacing, or exit-	assigned by type/severity. [AU,DU,CU]
	rbal or physical behaviors such as profanity, shouting, threatening, anger, aggression,	Dementia-without-behaviors existing diagnosis codes [F01.50,
_	ness, or violence]	F02.80, F03.90] are <u>revised</u> for use only as <u>Dementia (by type)</u> ,
	er specified behavior/s** [such as, sleep disturbance, social disinhibition, or sexual	with unspecified severity without behaviors.
	n. Use additional code (Z91.83) to identify wandering in dementia, if applicable.	anspecifica severity without semaviors.
	hotic disturbance [such as, hallucinations, paranoia, suspiciousness, or delusional state]	Former with-behaviors diagnosis codes [F01.51, F02.81, F03.91]
-3 Moo	od disturbance Isuch as, depression, apathy, or anhedonial	ipecome invalid Codes on 10-01-2022.
	etv	become Invalid Codes on 10-01-2022.
<u>-3</u> Moo <u>-4</u> Anxie		become invalid codes on 10-01-2022

ICD Code	Code Descriptions (sourced from official ICD-10-CM publications ¹)	Official Notes, Helpful Tips, Reminders
F01.A0	Vascular dementia, mild, without behavioral disturbance, psychotic disturbance, mood	Includes: Major neurocognitive disorder due to vascular disease,
FO1 A11	disturbance, and anxiety Vascular dementia, mild, with agitation	mild, NOS; Vascular dementia, mild, NOS
F01.A11 F01.A18	Vascular dementia, mild, with agreation Vascular dementia, mild, with other behavioral disturbance	Also use Z91.83 to identify wandering, if applicable
F01.A18	Vascular dementia, mild, with other behavioral disturbance	Also use 251.83 to luentify wandering, if applicable
F01.A3	Vascular dementia, mild, with psycholic disturbance	
F01.A4	Vascular dementia, mild, with anxiety	
F01.A4 F01.B-	Vascular dementia, moderate	
	Moderate dementia: Extensive functional impact on daily life with impairment in basic	
	activities. No longer independent and requires frequent assistance with daily life activities.	
F01.B0	Vascular dementia, moderate, without behavioral disturbance, psychotic disturbance, mood disturbance, and anxiety	<u>Includes</u> : Major neurocognitive disorder due to vascular disease, moderate, NOS; Vascular dementia, moderate, NOS
F01.B11	Vascular dementia, moderate, with agitation	
F01.B18	Vascular dementia, moderate, with other behavioral disturbance	Also use Z91.83 to identify wandering, if applicable
F01.B2	Vascular dementia, moderate, with psychotic disturbance	
F01.B3	Vascular dementia, moderate, with mood disturbance	
F01.B4	Vascular dementia, moderate, with anxiety	
F01.C-	Vascular dementia, severe	
	Severe dementia: Clinical interview may not be possible. Complete dependency due to severe functional impact on daily life with impairment in basic activities, including basic	
	self-care.	
F01.C0	Vascular dementia, severe , without behavioral disturbance, psychotic disturbance, mood	<u>Includes</u> : Major neurocognitive disorder due to vascular disease,
	disturbance, and anxiety	severe, NOS; Vascular dementia, severe, NOS
F01.C11	Vascular dementia, severe, with agitation	AL 704.03 + 1 + 15 + 1 + 15 + 1
F01.C18	Vascular dementia, severe, with other behavioral disturbance	Also use Z91.83 to identify wandering, if applicable
F01.C2	Vascular dementia, severe, with psychotic disturbance	
F01.C3	Vascular dementia, severe, with mood disturbance	
F01.C4	Vascular dementia, severe, with anxiety

² Other	Codes titled "other" or "other specified" are for use when the information in the medical	Best Practice/CDI note: Be sure to state the condition for which
specified	record provides detail for which a specific code does not exist. Alphabetic Index entries	the other/unspecified code is being selected when assigning
	with NEC in the line designate "other" codes in the Tabular List. These Alphabetic Index	other and unspecified diagnosis codes.
	entries represent specific disease entities for which no specific code exists, so the term is	
	included within an "other" code.	
	Codes titled "unspecified" are for use when the information in the medical record is	
	insufficient to assign a more specific code. For those categories for which an unspecified	
	code is not provided, the "other specified" code may represent both other and	
	unspecified.	
	L. 2011	
Excludes1	A type 1 Excludes note is a pure excludes. It means 'NOT CODED HERE!' An Excludes1 note	
	indicates that the code excluded should never be used at the same time as the code	
	above the Excludes1 note. An Excludes1 is used when two conditions cannot occur	
Fuelude: 2	together, such as a congenital form versus an acquired form of the same condition.	
excludes2	A type 2 Excludes note represents 'Not included here'. An Excludes2 note indicates that	
	the condition excluded is not part of the condition it is excluded from but a patient may	
	have both conditions at the same time. When an Excludes2 note appears under a code it	
	is acceptable to use both the code and the excluded code together.
